

I HEART LASHES

AFTER CARE TIPS & INFORMATION

Thank you for choosing I Heart Lashes by Jenni.

Following your eyelash extension treatment, please avoid washing your face with hot water or getting your lashes wet for a minimum of 12-24 hours.

In addition do not go for a swim, use a bath steam, sauna or undertake any strenuous activities that may cause your eyes to become in contact with water.

NO MASCARA

Do not use regular or waterproof mascara as these products contain oily substances that may cause the adhesive glue to weaken and in turn, cause your eyelash extensions to fall off.

Similarly, avoid using oil-based products (such as make-up removers).

MAINTENANCE

Lash extensions will typically last up to 4 weeks. To keep your lashes looking beautiful indefinitely, we recommend you schedule an appointment with us every 2-3 weeks to have an 'infill' applied.
